

The selection of a high school program is a very important task and one in which you, your parents, and your school counselors should give careful thought.

It is essential that you decide which courses best fit your needs and register for them. Each year students are disappointed because a class they requested closes or cancels. Although all classes in the Program of Study may be initially offered, final decisions on class offerings will be determined by enrollment after board action. Please note that some classes are offered on a rotating basis; see specific course descriptions for information.

For 2023-2024, Chardon Local Schools will again be partnering with Lakeland Community College for College Credit Plus (CCP) courses available on our campus. CCP offers qualified students the opportunity to enroll in college courses and earn college credit; which can also be used to fulfill high school graduation requirements. For more information regarding CCP, please meet with a school counselor.

Students are encouraged to plan carefully a program of study that will assist them in reaching their educational goals. The college preparatory program, accelerated, advanced placement programs and the career/technical educational programs outlined on the following pages are designed to guide students in selecting the subjects that will lead them toward achieving their goals. Enclosed below, you will be able to view the video presentation from Curriculum Night, along with a Google Slide Presentation and our Program of Studies. Please be mindful that all final communications pertaining to the program of study is contingent upon board approval.
