

Free Welding, Machining & Blueprint Courses

Auburn
Career Center

Have you ever been interested in learning a manufacturing trade like machining or welding? Auburn Career Center is offering **FREE** 1-month manufacturing courses in machining, welding, and blueprint reading and inspection! Classes will include hands-on training in the field you choose, awareness on the rewards of working in manufacturing, and local employment opportunities. Call, email, or use the link below now to learn more and register!

Need a 12-point credential for an alternate path to high school graduation? The welding course will offer a certification that will lead to graduation!

All classes are Monday –Thursday from 8:00am-12:00pm.

- **Machining:** June 6th—June 30th
- **Welding:** June 6th—June 30th
- **Blueprint Reading and Inspection:** June 15th—June 30th
