

January 3, 2022

Dear Chardon Schools Parent/Guardian:

Today, the Geauga Public Health Department issued an updated school guidance document related to isolation and quarantine as applied to close contacts and positive cases. This guidance (linked below) is closely-aligned with the CDC guidance and adjusts the isolation and quarantine periods for those individuals.

[Updated School Guidance](#)

The Chardon Local School District will apply the new isolation and quarantine guidance effective immediately to all close contact and positive cases involving students and staff members.

In addition, we are planning to return to school in-person on Tuesday, January 4, 2022. We have been closely monitoring staffing levels in each school and anticipate that staffing levels will be appropriate for conducting in-person instruction.

Sincerely,

Michael P. Hanlon, Jr., Ph.D.

Superintendent
